

Hotel

# Higienópolis Hotel

VRF

# HITACHI

## CITY 4\* HOTEL

The hotel has 252 guestrooms. It uses heat pump VRF system and 268 indoor units.

## SMOOTH INSTALLATION PROCESS

A transitional installation plan allowed for retrofitting of three floors at a time. This ensured that the hotel could operate normally with minimal disruption for guests.

## QUIET OPERATION

RPI-series ducted indoor units deliver quiet comfort at approximately 31 dB(A), dramatically reducing the unacceptable sound levels of the previous system.
