SPACE GAIN RETROFIT PROJECT

Before, a water-source chiller was installed indoor. Replacing it with Hitachi VRF enabled to place the outdoor unit outside and gain space and reduce indoor noise.

MINIMAL RETROFIT WORKS

With static pressure up to 220Pa, 5x Hitachi concealed ducted units could easily fit in the existing piping installation.

FRESH AIR AT THE RIGHT TEMPERATURE

4x Hitachi KPI units efficiently adjust the temperature of the incoming fresh air, by recovering heat from the exhaust air.

TOTAL CAPACITY: 140 kW
